Research interests	Computational Mathematics, Numerical solutions of PDE, Neural-ODE, Deep Learning		
Education	<b>Yangzhou University</b> B.Sc. in Information & Computing Science <i>GPA 3.64   Rank: 2/46</i>	Yangzhou, Jiangsu Province Sep 2021 – Present	
Awards(selected)	Mathematics Contest in Modeling (COMAP) The Chinese Mathematics Competitions (Chinese Mathematical Society) China Undergraduate Mathematical Contest in Modeling (CSIAM) Mathematics Contest in Modeling (COMAP)	<b>Finalist (Top 1%)</b> <b>Third Prize Top (20%)</b> <b>Third Prize Top (20%)</b> <b>Honorable (Top 23%)</b>	2024 2024 2024 2023
Scholarships	Yangzhou University President First Class Scholarship Yangzhou University President Second Class Scholarship	<b>(Top 5%)</b> <b>(Top 20%)</b>	2023 2022
Research experience	<b>Neural-ODE Based on LFT and MOR</b> Jiangsu Province College Student Innovation and Entrepreneurship Training Program ( <b>provincial level</b> ) Mentors: Professor Tao Jiang & Qianglian Huang Jun 2023 – Present		
Skills	<b>Programming</b> Proficient in: $\text{\LaTeX}$ (including Beamer), Python Familiar with: C++, Matlab		
Service and outreach	<b>Chairman of the Student Science and Technology Association of the School of Mathematical Sciences, Yangzhou University</b> Sep 2023 – Present Organize undergraduate discussion classes in the college, conduct basic skills training, and organize the application of science and technology innovation projects for college students.		
Other interests	Coffee, Badminton, Cat, Philosophy, Inference, Science fiction, Martial arts novels etc.
