Research interests	Computational Mathematics, Numerical solutions of PDE, Neural-ODE, Deep Learning		
Education	Yangzhou University B.Sc. in Information & Computing Science GPA 3.71 Rank: 2/46 CET-6: 485	Yangzhou, Jiangsu Province	Sep 2021 – Present
Awards(selected)	Mathematics Contest in Modeling (COMAP)	Finalist (Top 1%)	2024
	The Chinese Mathematics Competitions (Chinese Mathematical Society)	Third Prize Top (20%)	2024
	China Undergraduate Mathematical Contest in Modeling (CSIAM)	Third Prize Top (20%)	2024
	Mathematics Contest in Modeling (COMAP)	Honorable (Top 23%)	2023
Scholarships	Yangzhou University President First Class Scholarship	(Top 5%)	2023
	Yangzhou University President Second Class Scholarship	(Top 20%)	2022
Research experience	Neural-ODE Based on LFT and MOR Jiangsu Province College Student Innovation and Entrepreneurship Training Program (provincial level) Mentors: Professor Tao Jiang & Qianglian Huang Jun 2023 – Present		
Skills	Programming Proficient in: \LaTeX (including Beamer), Python Familiar with: C++, Matlab		
Service and outreach	Chairman of the Student Science and Technology Association of the School of Mathematical Sciences, Yangzhou University Sep 2023 – Present Organize undergraduate discussion classes in the college, conduct basic skills training, and organize the application of science and technology innovation projects for college students.		
Other interests	Coffee, Badminton, Cat, Philosophy, Inference, Science fiction, Martial arts novels etc.
